

MMS Keyboard Tray

Straight

Clipped edge

Manufacturer

Mark Mullin Sales

Description

This is an under-the-worksurface keyboard platform with a built-in wrist rest that can accommodate both the mouse and the keyboard. The height and tilt of the keyboard platform are adjustable. Available in the following thin keyboard platforms: flat platform, clipped edge. Mechanism: lift and lock or sit stand. With the clipped edge keyboard, please center the monitor in front of the keyboard and not the tray.

Price

Lift and lock mechanism: Model # M717W

26" keyboard tray plus mechanism: Model # M717W/MV-26

Cost: \$150 - \$200+ depending on options and charges for delivery, installation and removal of existing keyboard tray or pencil drawer.

University contract price available
