

Pinnacle™ Arms - Adjustable Keyboard Mechanism (Model 2170)

Manufacturer

WorkRite™ Ergonomics

Description

The Pinnacle™ arm series combines maximum knee clearance with a no-knob, no-level, lift-and-lock height adjustment. Features a sleek ThinGlide™ progressive ball bearing slide track for smooth and consistent operation. Available in three track lengths. Note: Platforms mounted on the shallow track arm (#2170-17TG) may not completely retract under the worksurface in a stored position.

Platform sold separately. See main Keyboard trays link

Price
